about Ruitersbos

A beautiful, undiscovered valley just at the foot of the Robinson Pass between Mossel Bay and Oudtshoorn. This is a region of scenic drives, quaint little shops and farm stalls, hiking trails and 4x4 routes. It is an absolute must-see for bird lovers and anyone interested in the Proteas and Ericas of the region's mountain Fynbos.

about Klein Brak

The long stretch of white sand is idyllic and if you've got a loved one this will be a special romantic walk to enjoy with each other, or if you don't let yourself be engulfed by the beauty of nature surrounding you. Klein Brak Rivier is another prime whale watching spot during season so you can bring your beach towel and umbrella and sit and wait for a whale to breach. Bring your camera and suntan lotion because you'll want to capture a photograph or two from this beach holiday!
